# How to increase sales

## A Whole School Approach

Starting from the ground and working our way up is an approach many schools have taken with our products. Enrolment packages are starting to include a Lunch Wallet along with the other compulsory items needed for a new school year (library bag, diary etc).

Initial orders can be taken from parents, then a constant supply can be made available in the School Uniform Shop for new students to purchase throughout the year.

## Don't forget about the school fete

The School Fete provides a perfect opportunity to introduce and showcase this new initiative to the wider school community. A great idea is to offer a pre order to the students and provide extra to purchase on the day.

## The School Canteen and/or Uniform Shop

A constant supply of Lunch Wallets can be offered throughout the year and be prominently displayed for all students and parents to see. Both products generate interest and excitement in ordering from the canteen; they have been proven by many schools to boost sales and profit. They work hand in hand with cashless / online canteens.

## Back to School Packs

To maintain yearly profits, add the Stickybeaks Product range to your "Back to School Packs" or "Booklists".
